

Starting the Conversation on Carbon Markets

December 15th 1:30PM EST -

https://us02web.zoom.us/j/89801144086?pwd=clB3TmRhdVdhKzFZS2VoS0t6MGtFdz09

Guest speaker – Graham Gilchrist (P. Ag.), CEO of Biological Carbon Canada, and expert in voluntary carbon offset trading markets

Know what all these terms mean and how they can relate to you and your farm operation?

Come learn at our event – Starting the Conversation on Carbon Markets

To date, this opportunity has been under-appreciated and has lacked meaningful investment or policy attention in Canada, despite global leadership in the development of biological and efficiency carbon reduction protocols in the agriculture sectors.

## Graham Gilchrist, P.Ag.

Graham brings a large breath of knowledge in farm management systems and greenhouse gas markets to Biological Carbon Canada (BCC). He is a professional agrologist with over 30 years of experience serving the needs of rural Canada. He holds licenses to practice agrology in the provinces of Alberta and B.C.

Prior to starting at BCC, he spent six years with the Farmers' Advocate Office in Alberta building industry stewardship best practices for carbon markets and offset trading. He provided advice to other technical experts on evidence-based solutions and persuaded the aggregation industry to standardize their purchase approaches. He was successful in setting up the Carbon Offset Trade Association, an industry leading voluntary market regulation.

Graham now brings this expertise to BCC and to rural Canadian stakeholders.
